

Software

Software is a set of instructions, data or programs used to operate computers and execute specific tasks. It is the opposite of hardware, which describes the physical aspects of a computer. Software is a generic term used to refer to applications, scripts and programs that run on a device.

Python 3.7 and Python 3.7.0 shell has been created

A screenshot of a Windows desktop environment. The taskbar at the bottom shows the Start button, a search bar, and several application icons including File Explorer, Microsoft Edge, and various utility programs. The system tray on the right indicates the date and time as 11:33 on 03-11-2022. A terminal window is open, displaying the following text:

```
python 3.7.0 (tags/v3.7.0-0-64bit120, Jul 28 2019, [18:24:21]) [AMD64 + 1538 MB RAM (4096K)] on win32
Type "help", "copyright", "credits" or "license()" for more information.
